I have a strong command of programming languages, frameworks, and tools, enabling me to craft efficient and impactful software solutions. My experience spans full-stack development, seamlessly integrating front-end and back-end technologies to deliver high-quality projects. I specialize in languages like Typescript, Python, and JavaScript, and have successfully utilized cutting-edge frameworks such as Next.js, Vue.js, Node.js, Express.js, Three.js, React Native, .NET, and React. Additionally, I possess a solid foundation in Data Structures and Algorithms, with expertise in SOLID principles and software design patterns, ensuring scalable and maintainable solutions. This combination of skills and experience has allowed me to consistently deliver innovative and reliable software tailored to meet diverse business needs.

Experience

FULL STACK DEVELOPER | AKC LINK TECH | October 2024 – Present

- Designed, developed, and maintained functional websites, 3D models, AI models, and mobile applications for diverse business needs.
- Built scalable and responsive web applications using modern frameworks and technologies such as React, Node.js, and Express.js.
- Created and optimized 3D models for integration into web, mobile, and other software environments.
- Developed AI models and machine learning solutions to improve business workflows and user experiences.
- Collaborated with cross-functional teams, including designers, backend engineers, and stakeholders, to deliver high-quality, user-focused solutions.
- Deployed and managed mobile applications for Android and iOS platforms, ensuring smooth functionality and integration with APIs.
- Conducted thorough testing and debugging to ensure robust performance across platforms.
- Stayed updated with industry trends, researching and integrating emerging technologies to enhance product efficiency and functionality.
- Followed agile development practices, actively contributing to sprints, stand-ups, and retrospectives to ensure project success.

PYTHON DEVELOPER | CODE DESIGN | JUNE 2024 – OCTOBER 2024

- Developed and maintained AI models and applications using Python and relevant frameworks (e.g., TensorFlow, PyTorch).
- Designed and implemented machine learning algorithms and deep learning models for various applications.
- Integrated and deployed AI models into production environments, ensuring scalability and efficiency.
- Optimized model performance through hyperparameter tuning, regularization techniques, and model evaluation.
- Collaborated closely with cross-functional teams, including data scientists, engineers, and product managers, to deliver robust AI solutions.
- Ensured adherence to project timelines and quality standards throughout the AI development lifecycle.

MERN STACK DEVELOPER | ALGORIM | MAY 2023 – JUNE 2024

- Developed and maintained web applications using the MERN (Mongo DB, Express.js, React, and Node.js) stack.
- Designed and implemented responsive user interfaces using react for front-end development.
- Integrated backend services and APIs using Node.js and Express.js.
- Optimized application performance by implementing best practices and conducting regular code reviews.
- Collaborated closely with cross-functional teams including designers and product managers to deliver scalable and efficient solutions.
- Ensured adherence to project timelines and quality standards throughout the development lifecycle.
- Actively participated in agile development methodologies such as daily stand-ups, sprint planning, and retrospectives.
- Researched and implemented new technologies to enhance product capabilities and improve user experience.

Education

IQRA UNIVERSITY

Bachelor's in Computer Science   Sept 2022 - present

IISAR FOUNDATION

Intermediate, Aga Khan Board   Aug 2020 – May 2022

SHAHWILAYAT PUBLIC SCHOOL

Matriculation, Aga Khan Board   Mar 2010 – Feb 2020

Skills & Abilities

TECH SKILLS

- Node.js & Express.js
- Mongo DB, Cockroach DB, PostgreSQL, MySQL, FireBase, SupaBase, GraphQL, & Redis
- Redux Toolkit
- Cloud Computing
- Docker and Kubernetes
- React.js, React Native, Vue.js, Three.js, Angular, Million.js, Asp.NET CORE & Next.js
- Cypress, Jest & Selenium
- Typescript, JavaScript, Python, C Sharp (Mid-level), Rust.
- Knowledge of Data Structures & Algorithms
- CSS, HTML, and SCSS

SOFT SKILLS
- Problem-Solving Ability
- Capacity to Perform Under Pressure
- Commitment to Delivering Results
- Self-Motivation and Work Ethic
- Clear and Concise Communication
- Adaptability to Learn New Skills
- Collaborative Work Approach

Certifications

- Coursera Certified Application Development using Microservices and Serverless
- Coursera Certified Backend with Node js and Express
- Coursera Certified Cloud Computing
- Coursera Certified Developing AI Applications with Python and Flask
- Coursera Certified Django Application Development with SQL and Databases
- Coursera Certified Frontend with React
- Coursera Certified Full Stack Application Development Capstone Project
- Coursera Certified Github
- Coursera Certified HTML, CSS, JAVASCRIPT
- Coursera Certified Introduction to Containers with Dockers, Kubernetes and OpenShift
- Coursera Certified Python for Data Science and AI Development
- Coursera Certified Full Stack Developer
